

BLACK TRANSFER TAPE

Our range of black adhesive products have been specifically developed for use as led light blockers in membrane switch, front panel, flexible circuits, sensors and other applications that require both light blocking and high performance adhesives.

Developed for use in the harshest of conditions, our transfer tapes demonstrate outstanding resistance to hostile environments.

Our Transfer Tapes utilise high performance acrylic adhesive coated on PE paper release liner.

Our black adhesive combines light blocking performance with high shear adhesion and excellent environmental resistance. The MTT764B provide's great adhesion to metals and different kinds of plastics including high HSE and or low LSE.

The MTT series Transfer Tapes provide a high quality product at a price positioned to help our customers compete in this competitive market.

Standard roll sizes 1260 mm x 500 M (R1), 1260 mm x 50 M (R2), 305 mm x 110 M (R3), 610 mm x 110 M (R4).
