To Whom It May Concern

REACH (EU Regulation (EC) 1907/2006 and subsequent amendments)

REACH is the Regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals. It entered into force on 1st June 2007. The main aims of REACH are to ensure a high level of protection of human health and the environment from the risks that can be posed by chemicals, the promotion of alternative test methods, the free circulation of substances on the internal market and enhancing competitiveness and innovation.

REACH makes industry responsible for assessing and managing the risks posed by chemicals and providing appropriate safety information to their users. In parallel, the European Union can take additional measures on highly dangerous substances, where there is a need for complementing action at EU levels.

Memcon products to the best of our knowledge meets the latest requirement of REACH SVHC high risk substances as listed on the ECHA website <https://echa.europa.eu/web/guest/candidate-list-table>, its authorisation list of Annex XIV and the restriction list of Annex XVII and as such we do not consider any supply risk linked to REACH in relation to products manufactured by Memcon.

Yours sincerely
MEMCON LIMITED
